## South Bay To Hold Charter Election

The South Bay town council has set June 14 for a special election at which voters may approve or disapprove a new charter recently passed by the legislature.

The office of police chief would become an elective office. The powers of the city government are defined in much more detail than in the charter under which the town now operates.

**TALLAHASSEE** — This last week of the 1951 legislative session found house and senate in disagreement over raising taxes to meet higher appropriations. The senate has passed a revision of the 3 per cent sales tax to provide \$17,500,000 yearly in fresh money to meet increases for teachers and old folks. The house has okayed increases too, but at the time this is written, had not agreed to any form of new taxes. The economy bloc was riding high in the house. Big question was whether pressure from schools and welfare lobbies would break their resolve to go back home without increasing the tax load.

**TALLAHASSEE** — The Haley committee has reported, but found no positive evidence of corruption. They did report almost unbelievable inefficiency in the state racing commission, based on only a

sketchy examination of the members. No evidence of wrong doing was laid to Governor Warren, although they noted he had spent more than the law allows on his election. The committee asked to be continued for two years, with \$50,000 for expenses, to continue probing for corruption in high places. As a byproduct of the Haley investigation, the legislature has ordered the racing commission to open its books and confidential files to state and county officials.

**TALLAHASSEE** — Racing has figured only briefly in the legislative news, and a threatened blow-up over harness racing didn't develop any steam. Speaker B. Elliott of Palm Beach county was able to blast two harness track bills out of unfriendly committees, first, by appealing to the house membership for a local Palm Beach county bill to let them have harness racing, and second, by stacking the house public amusement committee with six new members, he got the same committee to release a general bill permitting harness racing. It was opposed at every turn by the dog racing interests, who see in night harness tracks with pari mutuel wagering a direct threat to their prosperity.

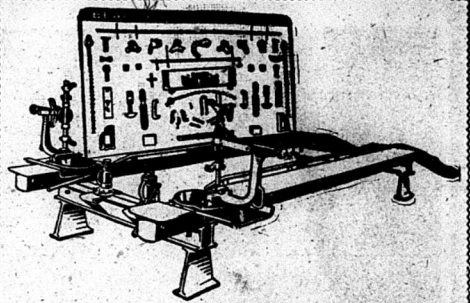

**TALLAHASSEE** — This legislature has dutifully voted more money than ever for welfare—old age pensions, aid to dependent children, and aid to the blind. It has, in addition, called on the welfare board to make public the names of those getting these benefits. This publicity shall be withheld, says the bill now approved, only if the federal government threatens to withhold its part of welfare on that account. The federal rules prohibit publicity on the names of those receiving aid. The legislature has decided not to require those getting welfare money to give liens on their property, nor does it appear likely there will be any curb on support for illegitimate children. Still pending is legislative requirement that old people, before they can get state aid, must first sue their children or other close kin, for support. This was approved by the house, is being opposed by a senate bloc headed by Senator Johnnie Wright of DeFuniak Springs.

**TALLAHASSEE** — James T. London can be continued indefinitely as hotel director, if the cabinet should agree with Governor Warren on his appointment. The legislature has approved a bill creating the new Florida Hotel and Restaurant Association, through which the director will be appointed by the governor and his

cabinet. Under the old law, the hotel commissioner is appointed by the governor, leaves office when the governor does. By another bill, hotels would have their licenses revoked if they lease space for gambling purposes.

**TALLAHASSEE** — Newspapers have come through a baptism of fire with flying colors, in this session of the legislature. Senate and house committees have killed or side-tracked bills designed to repeal the "honest mistake" feature of the state libel laws, to require newspapers to give equal space for answers to those criticized, to investigate the Tampa Tribune and the Miami Herald, to prohibit Hadacol advertising, to cut down on legal and political advertising. Still pending is a bill to require all political advertising to be paid for at certain rates, and to substitute professional process servers for public notice. Daily newspapers report their business offices delighted with a bill which prohibits publication of advance matter on races. Savings in setting type will run into thousands of dollars annually.

**TALLAHASSEE** — A medical college for Florida may result from a bill to let the state pay \$3,000 per pupil to any such school established by non-state agencies. It was sponsored by Dade county legislators but was amended to carry \$100,000 to plan state medical buildings for the University of Florida, and to appropriate \$2,500,000 to match any later federal aid for medical schools.

## Graduates To Seek Variety Of Jobs

Graduation on June 4, 1951 will find most of the members of the current senior class of Pahokee High School seeking work in this area. A recent survey of the senior class indicated that 21 of the graduates will try to find employment locally — 14 will endeavor to obtain permanent employment while 7 will be interested in summer work only. Most of this latter group plan to attend colleges or universities in the fall.

The survey shows that a wide variety of entry occupations will be sought. Some of the types of work that the seniors will be seeking are as follows: general office work, receptionist, mechanical repair work, sales work, ranch work, and mortician helper. A few of the students have indicated a preference for any type of outdoor work.

Registrations for work have been obtained from those seniors who will be in the labor market after June 4th. General Aptitude Test Batteries also have been administered to those students who will seek permanent employment. The General Aptitude Test provides information on the young job seeker's ability to learn approximately 3000 different occupations. The work registrations and aptitude test results are also of value to employers in selecting employees for entry jobs.

If you, as an employer, have a job opening for which you will consider employing one of these graduates, we will be pleased to aid you in making a good selection. Signed: Arthur Larrimore at the Florida Employment Service in Belle Glade.

## DRAUGHT SEEN BRINGING GEORGIA MILK SHORTAGE

ATLANTA—State Milk Control Board Director Charles G. Duncan said today that the current drought poses a threat of a critical milk shortage in Georgia.

He called the situation "serious but not critical at this time." However, if the drought continues another 30 days, he added that the situation will become critical.

Apprentice Jockey Charley Burr recently sat down so hard ice skating here—yes, in Miami—that he couldn't sit down on a horse for several days, and his riding assignments at Hialeah had to be cancelled.

## Plans Are Made To Send 4-H Boys And Girls To Camp

County 4-H Club members, both boys and girls, will attend week-long short courses at the University for Florida and Florida State College and summer camps during June and July. County Agricultural Agent M. U. Mounts said Monday after the County Commission donated funds for the trips.

Mounts said 18 girls will attend the short course starting June 11th at Tallahassee, which is staged annually by the FSC Home Economics Dept. for outstanding girls from throughout the State. Home improvement study will feature the course, he said. Both Miss Sara Horton, county Home Demonstration Agent, and Mrs. Mildred Michaud, assistant, will accompany the girls.

Ten boys, outstanding in county 4-H work, will attend the short course on agriculture to be held starting June 18th at Gainesville under sponsorship of the University's College of Agriculture Dept. Mounts and assistant county agent John H. Causey will accompany the youths.

The 4-H girls' camp will be held during the week of July 23rd at Camp McQuarrie, located in the Ocala National Forest, with 30 county club members attending, accompanied by Miss Horton and Mrs. Michaud. Assistant County Agent H. L.

Speer will accompany the 35 boys from this county at the summer boys' camp starting June 18th at the new State camp on Lake Jack, south of Sebring, Mounts said.

Just "Can't Get Over"  
Easy's Fence

Few years ago, Easy Roberts took a lot of kidding when he planted that hedge of Multiflora roses — along his property line. Folks said he was getting pretty high-falutin'.

But today plenty of people who laughed at the idea slow down when they drive by Easy's place — just to look at those roses. Most beautiful sight you ever saw.

Practical, too! The hedge is a good four foot high now, and at least five foot thick—even a shoat couldn't get through that prickly mass of shrubbery. Best of all, it

cost less than ordinary fencing. (Might be well worth your while looking into.)

From where I sit, there's no sense in looking down on something just because it's different from what we like. For instance, some people think ice-cold lemonade's the best "cooler-off" on a hot day. Some of us would rather have a glass of beer. The important thing is not to "hedge ourselves in" against other people's ideas and preferences.

# Growers And Shippers In Annual Convention In Orlando On June 14th.

ORLANDO — The 28th annual meeting of the Growers and Shippers League of Florida will be held in Orlando on June 14, according to announcement today by R. D. Keene, of Orlando, president of the league.

C. W. Taylor, director of the Bureau of Service of the Interstate Commerce Commission, Washington, D. C., will be featured speaker at the league's banquet which will begin at 6:30 o'clock, Thursday evening, June 14, at the Orange Court Hotel, Mr. Keene said.

Annual election of officers will follow the banquet and business meeting.

Gordon Stedman, secretary-manager of the league, said at his Orlando headquarters today that the fruit and vegetable industries of Florida would be "especially interested" in this address from Mr. Taylor, pointing out that Taylor's duties with the I. C. C. give him complete supervision over the movement of all railroad equipment, empty and loaded, in the U. S. A., including refrigerator cars.

"This is an extremely important duty and one of particular concern to Florida's fruit and vegetable in-

dustries, especially in view of the inadequate number of refrigerator cars now in railroad service," Stedman said, adding: "because of the extreme shortages of such cars recently experienced in Florida citrus and vegetable producing areas, Mr. Taylor's address will certainly be of great importance to us all in this state."

Stedman declared that Taylor was recently appointed to his position as director of the Bureau of Service, Interstate Commerce Commission, "after an especially fine record with the Association of American Railroads where he served as manager of the Refrigerator Car Section, at Chicago, all during the war years, and until his going with the Interstate Commerce Commission." While with the Association of American Railroads, Mr. Taylor's job was to handle the distribution of refrigerator cars under the so-called pooling arrangement.

"Because of his background of railroad experience, and particularly his splendid handling of the A. A. R.'s Refrigerator Car Section, Mr. Taylor is very well equipped for his position as head of the Bureau of Service of the Interstate Commerce Commission," Stedman added.

The 28th annual meeting of the league also features the report on activities from R. D. Keene, league president, and the annual report from the secretary-manager, Gordon Stedman.

In his talk Stedman will cover the general financial position of the rail carriers and their reasons for seeking authority from the I. C. C. for general increases in rates, while at the same time they have been working with the Growers and Shippers League to reduce rail rates to retain the tonnage they are now handling, and if possible to increase their volume of business and thereby increasing total revenues!

The Growers and Shippers League of Florida, a non-profit organization, handling transportation and traffic business for Florida's vegetable and citrus growers and ship-

pers, is official traffic representative for the Florida Citrus Commission, Florida Cannery Association and the Florida Citrus Processors Association. The league, founded 28 years ago, has a membership in all parts of the state. Many prominent Floridians, as well as the fruit-vegetable delegation, are expected at the June 14th meeting in Orlando.

He was further honored recently by being elected president of ODK for next year. Election of officers being held following initiation services May 16 in Longmire Building.

# Florida Now Producing 150,000 Tons Cow Feed Annually, Report Says

LAKELAND — Florida is now producing 150,000 tons of cattle feed annually, it was revealed by James H. Key, executive secretary of the Citrus Processors Association in an article appearing in the current issue of the Florida Dairy News, official organ of the Florida Dairy Association.

There are 21 citrus pulp mills now engaged in the production of pulp feed and approximately twenty million dollars is invested in the industry.

"Due to the increased production of citrus in Florida and with higher percentage of each year's crop being processed into single strength and concentrated juices, the citrus pulp industry, realizing the demand was there for the feed stuff which they produced and at the same time realizing that they would have more abundant raw material from the canning plants, have expanded their facilities to

meet this growing demand," Key said.

He pointed out that until three years ago, practically all of the state's production was consumed in Florida, but with the entrance of the New York Milk Shed and the New England States in the picture, it is estimated that 25 per cent of the 1948-49 season's production moved out of state.

Last season's out-of-state consumption totals jumped to 40 per cent while this season swelled to 50 per cent with approximately 75 per cent of this being consumed east of the Ohio River.

Noting that shipments this season have consistently outpaced those during each comparable period last season, Key said there had been 162 per cent aggregate boost in sales from October 1 through May 15, compared to sales during those dates last year.

## Impeachment Plan Loses In House By 76-6 Vote; Is Victory For The Governor

TALLAHASSEE — A move to impeach Gov. Warren mustered only six votes in the Florida House of Representatives yesterday.

The House rejected a resolution by Rep. George Okell of Miami which listed 11 articles charging that Warren had neglected his duty and ignored lawlessness in the state.

A special committee unanimously rejected all of Okell's proposed articles of impeachment as "not legally sufficient."

The House accepted the committee's report by vote and when Okell insisted on a roll call for the record the vote was 76 to 6.

Warren was not available for comment on the move by Okell, once a strong supporter of the silver haired chief executive.

The impeachment move was strictly an intra-party fight. Warren and 92 of the 95 House members are Democrats. Two of the three Republican members voted with the majority. The other did not vote.

The portly Miamian charged Warren with "wilfully ignoring"

his duty to help rid the state of illegal gambling and with falsifying his statement of expenses for his successful 1948 campaign.

Members voting with Okell were Dante Fascell of Miami, Ferrin C. Campbell of Crestview, Edward R. Kirkland of Orlando, T. C. Merchant, Jr., of Madison and Francis St. C. Pittman of Tampa.

Fascell and Kirkland joined with Okell in introducing the impeachment resolution.

The representatives also agreed to expunge from House records all but the title of Okell's 46-pages of proposed articles of impeachment.

Okell, serving his third term in the House, was one of Warren's campaign supporters and a floor leader in 1949 session. He broke with Warren over the governor's reinstatement of Dade county Sheriff Jimmy Sullivan.

No Florida governor has ever been impeached, although the House voted impeachment articles against Republican Governor Harrison Reed in 1868 and again in 1872.

## Pahokee Lions Hear Convention Reports

At the Tuesday luncheon meeting of the Pahokee Lions Club President Leonard Dobrow gave a report on the State Lions Convention which he attended in Jacksonville last week. It was revealed at the convention that Pahokee Lions ranked second in attendance to club meetings and third in projects and committee reports for this district during the past year. M. I. Keen and Frank Rozelle also gave brief reports on the convention.

Annual reports were given at the meeting by chairman of standing committees. The sight conservation committee reported the recent operation on the eyes of a blind child sponsored by the club was encouraging as the child has recovered some of its sight.

It was reported that some of the cattle the club is fattening as a fund raising project are ready for market and the board of directors at a session following the meeting voted to sell them.

### TODD TO STARKE

C. M. (Mack) Todd, manager of the Pahokee State Farmers Market, has been transferred to Starke where he will direct operations of the Starke Farmers Market during the peak of the vegetable harvest season in that area. Mrs. Todd will be in charge of the Pahokee market during his absence.

## More Road Work To Be Done In Glades During Summer

More road construction work is scheduled for the Everglades section of Palm Beach county this summer, according to County Commission Chairman Paul Rardin who recently returned from Tallahassee. Contracts will be sought by the State Road Department on several important pieces of road in this area, Rardin said.

The Road Department will ask for bids on June 5 for retreading 16 miles between Twenty Mile Bend and Six Mile Bridge. This stretch of road has a good base and the retread job will put it in first class condition. Bids will also be sought at the same time on a three mile piece of road between the Palm Beach-Hendry county line and Clewiston. This contract will finish the road all the way from South Bay into Clewiston.

Money has been set up in the 1951 budget by the SRD for a retread job on State Road 80 from Loxahatchee to Military Trail in West Palm Beach—a distance of 14 miles. Also in the budget is enough money to build the four much-needed bridges in the Lake section of the county—South Bay, Lake Harbor, Six Mile Bridge and Canal Point.

Plans call for early work on the half mile stretch of road between the Pahokee-Canal Point highway and the State Farmers market. Contract is expected to be let soon on SR 717—Bacon Point to Belle Glade, Rardin said.

## Coach Maynor Asks Year Leave Absence

Coach Jim H. Maynor has been granted a year's leave of absence from Pahokee High School to work on a master's degree in supervision and administration in education at the University of Florida, according to an announcement by Principal Clyde A. Canipe.

Mr. Maynor came to Pahokee from Belle Glade last fall to accept the position of head football coach and athletic director at Pahokee High School. His work in building the lightweight and inexperienced Pahokee High Blue Devil football team into a strong and spirited contender for the Suncoast Conference crown was regarded by many football experts as one of the most outstanding high school football coaching jobs in the State during the 1950 season.

On Thursday night of last week members of the football squad and the cheerleaders honored Coach Maynor with a farewell party at his home. The group presented him with a handsome piece of Samsonite luggage as a token of appreciation of his leadership in high school athletics.

## Lake Dike Will Be Named Beacham

TALLAHASSEE — The legislature has decided it wants that big dike around Lake Okechobee known as John R. Beacham dike, in honor of the late state senator from West Palm Beach.

The senate originally suggested the dike be named for former Republican President Herbert Hoover under whose administration federal money for the dike was appropriated.

The house proposed Beacham instead of Hoover and the senate agreed.

Republican Rep. Cramer of Pinellas County was the only House member to cast a dissenting vote. Two other House Republicans refrained from voting.

First appropriation for the dike was passed when Hoover was President, following the disastrous 1928 hurricane.

Beacham served in the Florida Senate for 18 years prior to his death last October.

The State gained two Congressional districts on the basis of the 1950 Federal census.

Eighth—Madison, Hamilton, Baker, Taylor, Lafayette, Suwannee, Columbia, Union, Bradford, Alachua, Gilchrist, Dixie, Levy and Nassau counties.

## No Harness Race Track For P. B. Co.

TALLAHASSEE — Almost as quickly as the roll was called a Senate committee today defeated proposals to renew a harness race permit in Palm Beach County and revise the so-called 20-mile limit between jai alai frontons.

The committee also rejected a House-approved measure to prevent members of the Legislature from working for race tracks. The vote turning down the jai alai bill was 4-6.

Committee men rejected an appeal by Sen. Morrow of Palm Beach, to let the Palm Beach harness bill go on the Senate calendar without reference. The vote defeating it was 7-1.

The jai alai bill would have had the effect of letting a proposed Broward County fronton, for which a permit has been issued, be moved three miles closer to the Dade County line. One now is in operation in Dade County.

A State law now says frontons must be built at least 20 miles apart.

Dog tracks in the Lower East Coast area opposed the jai alai bill. Representatives of Hialeah and Gulf Stream horse tracks told the committee today they would have no objection to summertime jai alai operations in Broward County.

Alden M. Drury, former General Manager of Florida Citrus Mutual, has accepted a position as Sales Manager and Public Relations Director for the Grand Island Citrus Cooperative of Umatilla, it was officially announced this week.

Fire starting at 1:30 yesterday (Thursday) afternoon leveled the warehouse of Bessemer Properties at Port Mayaca. According to Tom Gartland, manager of the properties, the damage was in the neighborhood of \$20,000.

The fire started when someone flipped a cigarette from a passing car, starting a grass fire along side the railroad right-of-way near the warehouse. The fire hopped across the right-of-way and onto Bessemer Properties land where the warehouse was located.

Mr. Gartland and his workmen were busy harvesting fruit when the fire started and by the time they could get to the scene the warehouse fire was beyond control. Tons of fertilizer and insecticides stored in the warehouse brought about the heavy loss, Mr. Gartland said. The loss was covered by insurance.

## Prices Down In Big N Y Store Since Fair Trade Law Killed

NEW YORK — The world's largest department store, R. H. Macy's in New York—today clipped six per cent off the price of 5,978 items of "price-fixed" brand name merchandise.

It was the first major price slash for brand name merchandise since the U. S. Supreme Court's May 21 ruling that stores which do not sign "fair trade" agreements are not obliged to observe retail prices fixed by manufacturers.

Employees of the big New York store worked late last night posting new prices for 1,000,000 articles of nationally advertised goods—drugs, books, sporting equipment, men's and children's wear, household appliances and other items.

Richard Well, Jr., president of Macy's, announced the price cuts. He said Macy's has never signed a "fair trade" agreement and the court's action has "removed the power to compel us to keep prices up."

Prices of radios and T-V sets were not among the 5,978 items marked down, but Well said "we will meet all competition."

Executives of Gimbel's, neighboring competitor of Macy's, could not be reached immediately for comment, but the overall policy of that store was given in a statement by Bernard F. Gimbel, president, shortly after the Supreme Court decision.

At that time Gimbel said: "For 109 years Gimbel's policy has been to meet all competition."

Sorrells, of Arcadia.

### ORDER REVERSED

ORLANDO — Attorneys for R. E. Crummer have asked the Fifth Circuit Court of Appeals in New Orleans to reverse an order transferring the \$30,000,000 anti-trust damage suit against the Ball-Dunpoint interests to Tallahassee for trial.

The suit was transferred by Federal Judge William Baker of Tampa because many of the defendants in the suit reside in Tallahassee area and many of the records needed for the trial are in possession of state agencies in the capitol.

## Christian Science Group Of Canal Point

Mental and spiritual defense against the carnal mind in all its phases will be explained in all Christian Science churches next Sunday. The subject of the Lesson-Sermon is "ANCIENT AND MODERN NECROMANCY, ALIEN MESMERISM AND HYPNOTISM, DENOUNCED."

The Golden Text is from Romans (16: 19, 20): "I would have you wise unto that which is good and simple concerning evil. And the God of peace shall bruise Satan under your feet shortly."

Selections from the Bible include: "For yourselves know perfectly that the day of the Lord so cometh as a thief in the night. . . . Therefore let us not sleep, as do others, but let us watch and be sober" (1 Thes. 5: 2, 6).

Correlative citations from "Science and Health with Key to the

Scriptures" by Mary Baker Eddy include the following: "Evil thoughts, lusts, and malicious purposes cannot go forth, like wandering pollen, from one human mind to another, finding unsuspected lodgment, if virtue and truth build a strong defence." (p. 234).

## Baptist Pastor To Give Special Sermon

Rev. Hoke H. Shirley, pastor of the Pahokee First Baptist Church, will deliver the spiritual message to the Pahokee High School Class of 1934 at the baccalaureate services in the high school auditorium Sunday, June 3, at 8:15 p. m.

Special music will be presented by the High School Glee Club under the direction of Edwin Leggett. Miss Margaret Shirley, pianist, will play the processional and recessional.

## Episcopalians Will Hear Edwin Leggett

On Sunday, June 3rd, the celebration of a Choral Eucharist at the Church of the Holy Nativity (Episcopal), Pahokee, will present as vocal soloist Edwin H. Leggett, tenor.

Excerpts from the traditional music for the Communion Service by Thomas Merbecke will be led by Mr. Leggett. For the offertory his solo will be the recitative and aria "If With All Your Hearts" from Mendelssohn's oratorio Elijah, and for the communion the 13th Century hymn "Humbly I Adore Thee".

Mr. Leggett, who has been glee club director at the Pahokee and Canal Point schools for the past year, is tenor soloist at Bethesda-by-the-Sea, Palm Beach.

On this occasion Mrs. Lucille de Moya, regular organist at Holy

Nativity, will be assisted by Chas. Creed, II.

Friends of the congregation are especially invited to attend this service.

## Lions Of Canal Point Hear About Kenaf

The possibilities of Kenaf as a profitable South Florida crop were revealed by Mills H. Byron, guest speaker, in a talk at the Monday dinner meeting of the Canal Point Lions Club.

Mr. Byron is an agricultural engineer of fiber machinery for the U. S. Department of Agriculture and is stationed at the present time at the Everglades Experiment Station. Introduced by A. R. Harrington, program chairman, he told the Lions, many of whom are vegetable farmers, there is a real need for growing kenaf as a substitute for jute, that kenaf grows well in South Florida's soils and climate and profits of \$600 an acre from the growing of kenaf are not unusual.

Plans were made to install newly elected offices on July 2. It was

announced there will be no regular club meeting next week since the scheduled meeting of June 4 conflicts with the commencement exercises at Pahokee High School.

Albert Fremd, finance chairman, reported his committee has collected \$400 of the \$750 necessary for the purchase of the baby grand piano at the County Park community building.

Floyd Erickson, sight conservation chairman, reported his committee has purchased two pairs of spectacles for local children in need of sight correction. President Boyd Vorhees presided.
